AAKASH SHARMA

Technical Lead | Backend Engineering | Python, AWS & Distributed Systems

Gurugram, India | er.aakashtrikha@gmail.com | +91 98768 30251 | github.com/Aakash017 | LinkedIn

SUMMARY

Hands-on Technical Lead with 8+ years of software engineering experience in Python, Django, AWS, microservices, and distributed systems. Currently leading technical delivery for a cross-functional team of 15 engineers, achieving a 30% velocity improvement within 3 months and maintaining approximately 90% sprint commitment completion. Experienced in backend architecture, engineering delivery, mentoring, cloud optimization, and AI-driven automation.

WORK EXPERIENCE

Senior Software Engineer (Technical Lead) — **Wood Mackenzie** Gurugram, India | 11/2023 – Present

- Provide technical leadership to a cross-functional team of 15 (12 developers, 3 QA), overseeing sprint planning, task allocation, architecture reviews, mentoring, and delivery coordination across 20+ repositories in collaboration with business stakeholders.
- Increased engineering team velocity by approximately 30% within 3 months through improved sprint planning, task distribution, and proactive blocker resolution.
- Maintain approximately 90% sprint commitment completion through coordinated sprint planning, development, and QA execution.
- Designed and delivered an AI-driven automation system that auto-generates data ingestion and processing pipelines, reducing scraper onboarding time from days to minutes.
- Led Python performance optimization and AWS infrastructure efficiency initiatives, reducing cloud infrastructure costs by 45%.
- Led backend architecture improvements using Python, Django, FastAPI, and microservices, increasing data-processing capacity by 40%.
- Led the investigation and resolution of critical client-impacting production incidents, coordinating root-cause analysis and fixes to restore service reliability.

Software Engineer (Team Lead — 6 Engineers) — **PasarPolis India Pvt Ltd** Gurugram, India | 11/2021 – 11/2023

- Served as team lead for 6 engineers, owning task allocation, code reviews, and delivery across web-based insurance solutions.
- Led a 3-engineer remediation taskforce, resolving all identified major production issues within 50 days against a 90-day target.
- Established Python/Django architecture standards, documented code-review practices, and pytest-based testing guidelines adopted by a six-engineer team.
- Reduced system downtime by 70% by directing the design of robust, scalable, and secure Django microservices.

Software Developer — **Knowlarity (Cloud Communications)** Gurugram, India | 06/2021 – 11/2021

- Developed and enhanced agent-status timer functionality for cloud communication workflows.
- Investigated and resolved delayed Call Detail Record (CDR) processing issues and multiple production bugs, improving system reliability.

Software Engineer (Technical Lead — 11 Engineers) — **RenewBuy** Gurugram, India | 12/2019 – 06/2021

- Served as technical lead for a cross-functional team of 11 (8 developers, 3 QA), owning delivery of insurance platform features from design through release.
- Led the design and development of an operations panel in Python/Django, cutting manual data entry by 50% and saving 20+ hours per week.
- Led the design of a video inspection rule engine that achieved 95% fraud detection accuracy.
- Engineered an automated policy renewal journey using Python/Django, contributing to approximately 60% growth in renewal revenue.

Python Developer — **Bains Innovation Labs** Chandigarh, India | 06/2018 – 12/2019

- Developed Django REST APIs for Autolife and Carsandjobs, enabling seamless integration with third-party platforms.
- Integrated PayPal, Authorize.net, and Moneris payment gateways.

ADDITIONAL EXPERIENCE & TRAINING

Python & Django Development Training Chandigarh, India | 01/2018 – 06/2018

- Completed six months of structured Python and Django training before entering professional software development.

Computer Teacher Jalalabad (West), India | 09/2015 – 12/2017

- Taught computer fundamentals, MS Office, and introductory programming to Classes 10–12, while supporting teachers with digital academic materials.

SKILLS

Leadership & Delivery: Technical Leadership, Sprint Planning, Agile/Scrum, Team Mentoring, Stakeholder Management, Delivery Planning, Requirements Analysis

Backend Engineering: Python, Django, FastAPI, Flask, REST APIs, Microservices, System Design, SQL

Data & Messaging: PostgreSQL, MySQL, Redis, RabbitMQ, Celery, Apache Airflow, ETL Pipelines

Cloud & DevOps: AWS, Docker, Kubernetes, Terraform, CI/CD, Git, Linux

AI & Emerging Technologies: AWS Bedrock, RAG, LangChain, LangGraph, MCP, AI Agents

EDUCATION

FCET Ferozepur — **Bachelor of Engineering and Technology, Computer Science and Engineering**
Ferozepur, India | 07/2011 – 08/2015

AWARDS

- Employee of the Month, PasarPolis (04/2022)
